

THREE BRUTAL BONDS.
THREE MONSTROUS PROTECTORS..

Beyond the human borderlands, the Iron Spires are ruled by monsters, clan law, and bonds forged in blood.

The men taken into that world expect captivity.

Instead, they find brutal protectors: orc enforcers, alphas, and chieftains who claim with teeth, steel, and terrifying devotion.

Across three dark MM monster romances, fear turns to fascination, chains become protection, and surrender becomes something chosen. But in the Iron Spires, love is never soft. It is fought for, marked, and defended against every rival who would tear it apart.
